Description:

Anita Blake has been asked to raise the dead-but the results aren't going to make everybody happy...

Full price for a novella? Really? I enjoy these books- that's why I feel a bit robbed by this one. Short, and only four scenes- most of them short-office, restaurant, mansion, graveyard- wham, bam, thank you ma'am! Laurell, please- don't crank out a book every year to cash in on your fans. Don't keep describing everything that happened in every previous book in the new book to fill in space- maybe allude to, or even mention- but DON'T describe the whole tableau in every book you write! Your fans read your books, probably in order even- let them enjoy recognizing a reference to a previous novel and be smug that they are in the know about Anita's life and experiences, don't bore them to death reading about it for the fifteenth time!! And for the love of God- DON'T keep having the endless discussions such as between Richard and Anita debating morality or other issues!! Let them progress, and even if the issue is still there let them MENTION that they've discussed it before, instead of chewing it to death over and over and over... it just seems like your books now are filled with 50% describing events from previous books and exhausting conversations that never end! I find myself skimming over entire pages to get to some narrative that actually talks about events that bring the story forward... Please- go back to the first 2-3 books in this series, and try to recapture that pace and flavor. Those are what hooked your readers.
