## Description:

The bestselling author of WHERE THE HEART IS returns with a heartrending tale of two children in search of a place to call home. Lutie McFees history has taught her to avoid attachments...to people, to places, and to almost everything. With her mother long dead and her father long gone to find his fortune in Las Vegas, 15-year-old Lutie lives in the god-forsaken town of Spearfish, South Dakota with her twelve-year-old brother, Fate, and Floy Satterfield, the 300-pound ex-girlfriend of her father. While Lutie shoplifts for kicks, Fate spends most of his time reading, watching weird TV shows and worrying about global warming and the endangerment of pandas. As if their life is not dismal enough, one day, while shopping

in their local Wal-Mart, Floy keels over and the two motherless kids are suddenly faced with the choice of becoming wards of the state or hightailing it out of town in Floy's old Pontiac. Choosing the latter, they head off to Las Vegas in search of a father who has no known address, no phone number and, clearly, no interest in the kids he left behind. MADE IN THE U.S.A. is the alternately heartbreaking and life-affirming story of two gutsy children who must discover how cruel, unfair and frightening the world is before they come to a place they can finally call home.

I really expected to like this book. I've read the author before and loved her. But this was a very unsatisfying read. She had a lot of trouble writing the children's voices. The teenager was supposed to have a dirty mouth, but it was as if the author was afraid to use the kind of language required to express this. The characters just didn't sound like kids talk. I feel like she told too much rather than showed. The characters explained everything in dialogue. The transitions were lacking. The secondary characters weren't well drawn. Just not a good book..

I only came to know of Connie Schultz in the last six months or so. Once again, longer would have been nice, but since the story U.S.A. so well developed, longer might have made it just mader. A great book for children to visually enjoy. I wasn't disappointed. My son raced through this series.
